TRAVELLER

A redesign of the character sheet for Mongoose Traveller 2nd Edition (compatibility with other versions of Traveller may be possible, but I make no promises).

This sheet is designed to be clean, low on ink-use, and provides as much information as possible in a user-friendly way. It includes a number of additions to the version included in the Core Rulebook - such as space to record damage to attributes and career progression.

The sheet is designed for an A4 page, but should print on Letter with few if any issues.
